Education

2027 (Expected) Ph.D., Economics, University of Washington
Fields: International Finance, Macroeconomics, Asset Pricing
2023 M.A., Economics, University of Washington
2020 M.S., Statistics, University of Notre Dame
2018 B.S., Mathematics, University of California - Irvine
Honors in Mathematics, Concentration in Mathematical Finance
B.A., Quantitative Economics, University of California - Irvine
Honors in Economics
B.S., Chemical Engineering, University of California - Irvine

Working Papers

When Yield Curves Invert Together: Currency Crash Risk (Job Market Paper)

A currency is exposed to risk specific to its own country and to risk that is global. A single country's yield curve inversion can reflect either kind, but when multiple countries' curves invert at the same time, the more likely cause is a global shock. I build a state variable from synchronized inversions across the G10 currencies' yield curves and show that it marks periods of elevated systemic currency crash risk. When the state is on, currencies depreciate in the order of their interest rates and of their sensitivity to global equity markets ("currency betas"). The same interest rate differential that generates carry income therefore also sorts currencies by their crash exposure; high- rate currencies, which carry trades buy, depreciate more than the low-rate currencies used to fund the trade.

Selected Work in Progress

Maintaining Carry Structure in Machine Learning Carry Trade

Fellowships and Awards

2021 George and Pearl Corkery Scholarship
2018 Order of Merit Awards

Teaching

Instructor, School of Business, University of Washington - Bothell
2026- B BUS 221: Introduction Macroeconomics

Instructor, Foster School of Business, University of Washington
2025 QMETH 201: Introduction to Statistical Methods

Instructor, Department of Economics, University of Washington
2025 ECON 301: Intermediate Macroeconomics
2024 ECON 200: Introduction to Microeconomics

Teaching Assistant, Foster School of Business, University of Washington
2026- SCM 501: Probability and Statistics
2025- BUS AN 510: Probability and Statistics
2024- QMETH 201: Introduction to Statistical Methods

Teaching Assistant, Department of Statistics, University of Washington
2022-2024 STAT 311: Elements of Statistical Methods

Teaching Assistant, Department of Economics, University of Washington
2022-2023 ECON 201: Introduction to Statistical Methods
2022 ECON 345: Global Health Economics

Teaching Assistant, ACMS Department, University of Notre Dame
2019 ACMS 37020: Projects in Actuarial Science
2019 ACMS 30600: Statistical Methods and Data Analysis
2019 ACMS 30010: Applied Mathematical Financial Economics
2019 ACMS 20620: Applied Linear Algebra
2018 ACMS 30530: Introduction to Probability
2018 ACMS 10145: Statistics for Business

Professional Service

2022– Graduate Student Committee President

Non-Academic Employment

2021 Panin Asset Management, Machine Learning Engineer - Market Forecasting
